- Credit History
- Capacity/Cash Flow

- Capital / Contribution
- Condition
  - Leverage-Debt/Worth Ratio
  - Liquidity
  - Balance Sheet Analysis to understand financial health of the company

BUSINESS CONSORTIUM FUND, INC.

“BCF loan programs and business support services are available only to NMSDC certified minority business enterprises that have, or have had within the past 12 months, a vendor or supplier relationship with an NMSDC national or regional corporate member.”

If the answer is yes to each of the following questions, then a business is eligible for consideration for one or more of the BCF loan programs:

1. Is the business a certified minority owned business enterprise by an NMSDC affiliated Regional Council?
2. Is the loan for business purposes?
3. Does the business have contracts/purchase orders, or a meaningful supplier relationship with an NMSDC national or regional corporate member?

“BCF products include purchase order financing, factoring, direct lending, loan participations, and servicing MBE working capital needs. The BCF may provide debt financing directly to NMSDC certified MBEs through its Direct Lending Program. The funds may be used for a variety of purposes and can be in the form of either a term loan or line of credit. The current maximum loan is $500,000 and the minimum is $75,000. The BCF will consider higher loan amounts (currently up to $1.125 million) on a case by case basis. Loan terms may not exceed 7 years.”

ELEVATE VENTURES

Elevate is part “venture capital fund, and part entrepreneurial development partner. This twofold strategy means we not only provide investment capital to Indiana entrepreneurs and robust investment opportunities to funders, but we also make value-added services available to entrepreneurs and community leaders. Collaborative relationships with universities and communities across the state are critical to this model.”

Businesses that fit the Elevate Ventures model have a few things in common:

- They are a startup based in or interested in relocating to Indiana.
- They are generally involved in Agriculture, Life Sciences, Information Technology, Advanced Manufacturing or Medical Devices.
- They are in the Ideation, Early or Growth stage of development.

SBA LOAN GUARANTEE PROGRAM

The SBA guarantees a portion of the loan, which makes it easier for funders to provide loans to small businesses that may fall in a higher risk category. These businesses may not be in a strong enough financial position to obtain traditional bank small business loan and therefore rely on the SBA guarantee.

“Loans guaranteed by the SBA range from small to large ($500 to $5.5 million to fund your business) and can be used for most business purposes, including long-term fixed assets and operating capital. Some loan programs set restrictions on how you can use the funds, so check with an SBA-approved lender when requesting a loan. Your lender can match you with the right loan for your business needs.

Lenders and loan programs have unique eligibility requirements. In general, eligibility is based on what a business does to receive its income, the character of its ownership, and where the business operates. Normally, businesses must meet size standards, be able to repay, and have a sound business purpose. Even those with bad credit may qualify for startup funding. The lender will provide you with a full list of eligibility requirements for your loan.”
