Public Works would like your help to classify your water service line. As part of new Environmental Protection Agency's regulations, public water utilities are now required to identify all drinking water service line materials that connect from City water mains to the customer's home. Since the City cannot visit every home to determine the material of water service lines, please watch a short video online and complete our questionnaire at [southbendin.gov/serviceline](http://southbendin.gov/serviceline).

El Departamento de Obras Públicas (Public Works Department) pide la ayuda del público para identificar al material de su línea de agua. Como parte de las nuevas regulaciones de la Agencia de Protección Ambiental, los servicios públicos de agua ahora deben identificar todos los materiales de las líneas de servicio de agua potable que se conectan desde las tuberías principales de agua de la ciudad hasta sus casas. La ciudad no puede visitar cada casa para determinar el material de las líneas de servicio, por favor vean un breve video en línea y complete nuestro cuestionario en [www.southbendin.gov/serviceline](http://www.southbendin.gov/serviceline).
