## Indiana Demolition and Renovation Requirements

Pursuant to 326 IAC 14-10-1, prior to the commencement of a demolition or renovation activity, the owner or operator of a facility shall use an Indiana licensed asbestos building inspector to thoroughly inspect the affected facility, or any part of the facility where the demolition or renovation operation will occur, for the presence of asbestos, including Category I and Category II non-friable asbestos-containing material.

Prior to performing any renovation or demolition, the owner or operator is required to submit a notification of demolition or renovation to IDEM-OAQ. Pursuant to 326 IAC 14-10-3, the owner or operator of a facility where demolition or renovation activity will take place shall provide the Indiana Department of Environmental Management Office of Air Quality with written notice of the intention to demolish or renovate on a form provided by the department and update such notice as necessary. A notification is required even if no asbestos is present.
